Bible Thought for Today

March 20.

HAVE ALL GOOD: The young tions do link and suffer longer; but they that seek the lard shall not want are good thing. Peaks

INCOME TAX FROM INDIAN LANDS.

It is difficult to account for Senator Cuests tion in opposing the Harreld amendment which seeks to make the income from Indian. lands taxable, it can scarcely be contended that the amendment is unconstitutional, and without such a contention the opposition stands beneft of a defendable excuse, unless it can be shown that treaty stipulations stand in the way.

Men who produce oil from Indian lands should not leave immunity from because, There are came where great fortunes have been and are now being accumulated from such a source. Such undertakings and such property enjoys all of the protection of government thrown around any other property. To assert that the man on one side of a section line, producing from an Indian allotment, should not pay tax, while his neighbor on the other side, producing from alienated Indian land, should Pay tax, is to get up an impossible and unjust doctrine of law and government.

Nor should the Indian be exempted from tax-Atlan on either his real property or income. Oklahoma has suffered grievously from this policy of overpetting the Indian. If, and in rose fratances where the Indian is without property or income, he becomes an unavoidable charge on the state, he must needs be provided for by all of the taxpayers. Where he has property and income - and some of the wealthiesi men in Oklahoma are Indian wards of the nevernment-he should be required to confribute towards the upkeep of the state just as

Less than that is mission both in himself Bud the state Senator Curtle as well as other members of converse, should auderstand that There are a million and a bult white folk in results, that they are entitled to yeaboords so ton blunds him mitaredizeros starting To hear the white must's harden exchatydy,

A GRAND JURY THE THING.

The World Shall Carlf in perfect agreement with the proposed that a wood her he called immediately to sail the wheat from the chaff By the hysteria of criminal charges which seem No he the order of the day in this community. During the past few months scarcely an organization, scarcely an institution, scarcely a man of public character has escaped charges

of crass criminality. The result is that one Annwa not who to believe or must. The number Is in a westered frame or mind. If is true that several court actions, wherein

corruption and criminality have been charged, have gone to a determination without anyone being convicted or his character; ever parugned by legal procedure. Yet the standalous Anatoria gues un.

One of two things is unquestionably true: Tubes is either a compost of iniquity, its institufrom and its public men far beyond the pale of decency, or the community and its lasticuthose and public men have been outramously Distled and seriously damaged.

We think there should be a show-down on they same and that it should come speedily. We have of on man other than that provided by low. Let a grand pay be impanifed with littledelay. Let all of them charged be inquired into behind the locked doors of the grand pary room, And he the results of such a court of inquiry form the bade of sifter prosecutions in the priming courts or denouge suits in the civit The fine has come for action,

HUGH SCOTT A CANDIDATE.

Hugh Scott is reported to have wired from Washington that he is a candidate for the republican nomination for governor of Oklahoma. Thus he gains the distinction of being first in the ring with his headploce.

Scott is an officer in the medical corps at Washington and is engaged in hospitalization work. He has been in the federal service for wears. He was at one time secretary to B. S. Siccluire, when that gentleman was in congress.

Agolo, he was, for a time, something to Gov. Frank Frantz, Just ofter France was appointed governor by President Boosevell.

It is understood that first enters the gubernatural ruos on the theory that as an ex-Hod bas que televisione set Houself name pollthe ex-midding rate, no far his campaign has been under the publicity administration of there, Gilstrap of Chandley, size a Washings ion official, being semulary do Congcessman Marriel Herster power that reputemants where tion to congress.

THE DISMAL FUTURE.

Lafe so my meanway which the builty as things now are, but if all the predictions of wrientlets and busyandoor come true-yes; it light of themmajoriation reward he belter for usuall to shuffle off the murtal and in a ners building my Otherwise, without delet-

look awful good, since it! We can but wonder out what variety of must other than we have been contending with in a hand-reduced battle for some time, will sould up and challengs our existence. It does ment that some one of these informational conflicts ought to take engalganos of this because. Each nation could at least agree to round up become particular agriculty of boars and undertake to been through thomas This would be in accordance with the covenant, which authorizes all member nations to being or the attention of the Wirsle anything likely to threaten the peace of the world.

If the burn are preparing to go on a campage against marshind the perior of the world is very much threatened. By all means he go do something and do it quite.

ROSPITAL CONTRACT LET.

The content for the soldier boundal has been awarded. It went to the Manhattan Constyliction company for \$319,260. The approprintion for this institution was \$500,000.

Sophisticated Chilabounans will have little difficulty in recalling that they have heard of the Monhatian Construction company on trevious accasions-many previous occasions.

It stight the well for some enterprising newspaper man to look corefully into the present personnel of this company. There was a time when its list of stockholders was exceedingly interesting if not apportioner.

The contract price accurs to be all that one could expect. But we advise patience. The remaining \$160,500 remains to be expended.

Reporting favorably an unusually jurcy river and harbor's bill to the best way for congress not to fulfill His economy pledges. From time immemorial, whether congress was controlled by the democrate or republicans, the river and harbor hill has been the one accepted perkbarrel measure of each and every congress. The money which has been wasted first and last dredging Coon creek and similar streams or improving barbors that were never used, would of Haelf afford a sufficient sum to retire the public debt or a goodly portion of it. If members of the present congress cannot be impressed with the importance of practicing genuine economy the country is under the painful necessity of making at least one more try for men who can get and reflect its viewpoint.

In Paris they are bootlegging love philters as an aid to matrimony. The girls are patronising the bootleggers extensively, so they say. By dint of much effort we have been able to get A copy of the coupe. Here it is: Beaut a male sparrow until it is even grill if the clader and powder at add a cock's comb dried in the sunand a sprinkle of peopler; mix this together in a passes add a little status. A small pill of this once a day in guaranteed to bring about a surrender on the part of the love-

It secure in a good many people to an incirasingly large number of people-that feds eral officials should sulver acquire and exercise the authority to prevent strikes and settle tabor disputes or aboutd keep their hands off and permit the parties directly interested to settle their own. The miners' strike in the litest abarrion of so-called believed interference. Strikes are war, and like was are never compowed for remopression

AGE AND BOYHOOD.

When Age considers Regulah Twelve it ought to hook through kindly eyes. If wondon were the gift of youth then little children would be wise.

They took him to a licture tail a healthy communer twelve there aid.

Just what to do and now to not the little fellow That been told.

Now becures may be proper stuff to pour in grown-up people a cars.

But where's the boy of twelve who rares about The Mystery of the Spheres.

They sat him in a straight-backed chair and soon the lecturer began!
Deep in the love of ancient life the beavy-freshield discourse ran.
The youngster shifted in his seat, annoying people round about.
Then collects exclusived aloud: "Gee whit.
I wish you'd take me out."

He squinned and twisted moved his chair, and dropped his murbles on the finer, the rewood a healthy boyles yawn, and then they shawed him to the door.

Its parents followed, red with shame, and thus who round shour lises but.

Wordered what they were thinking of to let the boy behave like that.

But I maintain the lad was right and good as The fault all the fid was right and good as two fideling year sid con the.

They ask too much who want a boy to be as gave as fifty-three.

The fault all lies with grim old Age, which is severe and stern and cold.

And looks for grown-up, conduct in a healthy boy just twelve years old.

It is said that in Huesia alone there are \$90. children of the mountry, some with handles to their names a yard long, anxious for adoption ler American perents with measures sufficient in enable them to enjoy the lexury of a little ford or lady in the family. Here is an opportunity for some of our newly sinn in graduans

BEING AN AMERICAN MEANS OPPOR-TUNITY FOR SERVICE.

BY BAUDI STEPHEN S. WISE, New York City.

New York City.

If I have a nursesup for young men it is to remind them how entrone we than eldage, were in the Jays and you of the last gentary, because we foil that the last great deed of earth had been done by the men who hatfied for the union and for the liberation of rivers during the Colli war. Within a few years, there same who her opportunity to serve our nation and the coase of reasons and our sons, the elder brothers of those to whom I am writing, lank up the borden with all the courses and redden brothers of those to whom I am writing, lank up the borden with all the courses and redden brothers of those to whom I am writing, lank up the borden with all the courses and redden from the would be being and freedom to the world.

I do not know whether such struggle will ever come again, be courly do I pray that earth had any sever again be sourged by such a war as that which the allies and we have won. But, whether or not actual warfare is to come. I would say to my young friends that America is only in the making, that nothing more than the foundations have beed laid, and that what America is to height my heart they in the days upon us are to do for America. America means the opportunity to work out the experiment of democracy, a form of geyenmont in which how is supreme—law mored in and ever notking for justice.

The important thing to not in cry out against those who misunderstand America and fail to lave it as it deserves to be leved, but to make America so besutiful, its life so fine, in a way which can never be attained save through spiring cannel on and ever not and eatership.

My motto for American boys would be—

One wase of severe combinerabl loss that you can't arige around. He in the loss occasioned to soldiers in France by circlic of their baying been paid in frances, for their \$25 per month have pay. They reversed france—not deflare; when they were ready to retain, and ox-hanged their frances for deflare, it make a data than the raths of france to deflare which our government paid to them. Select the government paid the frances for each deflar the edited had to pay back as high as cight trance for a deflar in the "lates a soldier that edited had to pay back as high as cight france for a deflar in the "lates exchange" is a paying for particular in reinhibute those soldiers. In it paying for seveles."

It wasn't in Europe, my self, but I can and

for services?

I wasset in Kurepe, asympt but I can and will give you as order made to all officers of the 20th careful at the Rio. Texas by the commanding officer, commanding pa to provide ourselves with certain officers engineers, the expenditure for which amounted in my own case to be weet \$200 and \$750. The link I bought soil much use to now no one wants it. It isn't worth \$10. Would I be asking for pas for services of I ask for reimborsement for this morester line? Would I be asking for pay for services of I ask for reimborsement for this morester line? Would I be asking for pay for introduced in I asked for pay for the stime management in the particles of I asked for pay for the stime management in the particle of the stime management in the particle of the stime management in the story raid on the public treasure.

You talk about raid on the public freasing You talk about raid on the public freasing You thus appeal to the most common of all human emotions—feat; you would frishless the public into thinking that national backruptes in imprending. And what were the editors in The World doing while we were away at war. You weren't raiding the public framity were you?

You and the rest of the profiters had I profit case while the soldiers were away; you commercialized your econfituation we had no opportunities to connectalize; had we been opportunities to commercialize; had we been with you note in the plundering, we wouldn't need any benue. And, who is best able to may it? The United States And how will they raise the money? By taxation Against Whom? The little fellows—the laboring classes—the salaried men? Hardly, Taxation will fut the 'big interess,"—the profilers, you included, and you will have to pay—not for puriodism, not far solders' services but for our just and honcest commercial, losses.

I hope you but this in a prominent class in your sheet where Joe Carson post and all self-respecting citizens can read it.

Yours truly.

Yours truly, THOMAS C. SWANSON,

POST-WAR DOG

No Time for the 'Old Girls' After Marriage

By NORA COLE SKINNER

I have a faint friends, after having indulged in all coolination that the sweet and intimate confidences in the dim past that school-girls have to confide, girls used to compare that school-girls have to confide, girls used to compare that school-girls have to confide, after having felt more like sisters plain that when than just chungs, to have her, just they got married because marriage and a broader life have void girls. It was all interest and how for the part of the still tail still enjoying single blessed in the still tail still enjoying and have right.
